

Hole Master™ from REED

✓ WHY REED?

Hole Master's plate, with the drill attached, separates quickly from the base. This allows securing the base to the pipe without wrestling with the added weight of the drill.

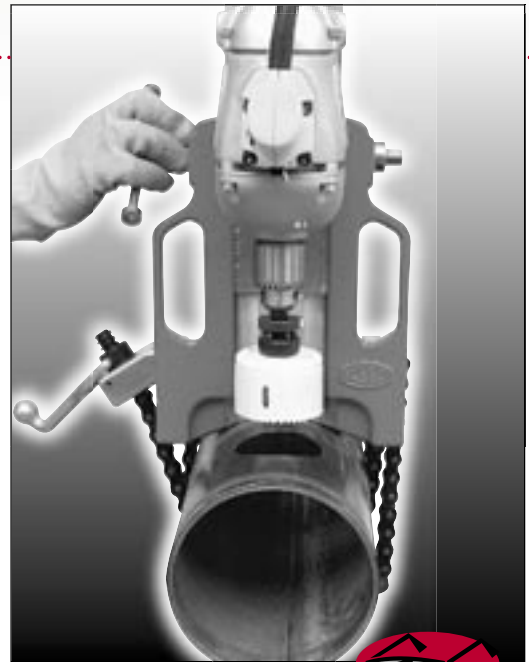

Shown with drill and hole saw which are sold separately.

NEW HOLE MASTER™ Hole Cutting Base

Reed's HOLE MASTER™ provides a means of clamping onto pipe and using a drill to cut a hole in pipe, including steel pipe.

- HOLE MASTER™ includes base, chain and screw for clamping, along with a plate and drill holder.
- Features light-weight aluminum castings with built-in handles.
- Pipe diameter mounting range: 1 1/4" - 10" (42 - 273mm).
- Fits hole saws up to 4 3/4" (120mm).
- Hole saw, bit, or shell cutter sold separately.
- Use the HOLE MASTER™ in depressurized systems only.
- Electric or cordless drills for the HOLE MASTER™:
Milwaukee® 1660-1 and 1660-6
DeWalt® DW131 and DC987KA
