- Twist the handle to slice smoothly through PE pipe.
- Durable, non-stick coated blade makes many square cuts with no chips to clog valves or small openings.
- Blades are easy to sharpen or replace.

Add Static Grounding Device like PEGR7 to dissipate static electricity.

- Removes .009” – .012” peel thickness.
- Observation window indicates the completion of the peel.
- Close fitting mandrel holds pipe secure and rounds pipe that may be oval.
- Rotate blade 180 degrees for a second cutting edge and twice the blade life.

Multiple sizes available for 1/2” to 2” diameter pipe in CTS and IPS.

- One tool peels a range of pipe.
- Takes 2 minutes to attach to pipe and peel 6” PE.
- Creates a uniformly peeled surface.
- Works well even on out-of-round pipe.

Multiple sizes available for 1/2” to 2” diameter pipe in CTS and IPS.
**FEATURES**

- Reed cutters are the most recommended by plastic pipe companies and most imitated by other manufacturers.
- Cut clean with very little burr.
- Wide variety of wheels available for all types of plastic pipe.

**PE SQUEEZE-OFF TOOLS**

- Stop flow in ½” up to 8” PE pipe.
- All PE Squeeze-Off tools use positive stops to prevent damage caused by over-clamping.
- Sliding bar handles make work in tight places easier and increase leverage for tightening.
- Multiple size/SDR settings on one pair of stops provide quick, convenient over-squeeze protection for standard pipe sizes.

**R470+**

- High-tensile, ductile iron handle and hardened, alloy steel parts are designed to withstand the heaviest demands.
- Offset wrenches have similar construction and provide longer swing in hard-to-reach places.
- Features solid steel pin in the heel jaw, an Xtra Value!

**MODELS FIT**

- ⅛” - 6” Straight Handle
- ⅛” - 2” Offset Handle
Hinged Cutters™
• Hinged Cutters™ are a Reed invention! They are lighter, track better for square cuts, and require less clearance, yet provide better torque so the cut is made faster and with less effort.
• Can be used in close quarters anywhere – in the ditch, underwater, in noise-free zones, overhead, in racks of pipes, etc.

Plas In-Line Rotary™ Cutters
• Cuts out-of-round pipe because of spring loaded nuts. No chips to clog valves and apertures.
• Inexpensive tool to make a cut for a tie-in or pipe break and then get the line back in use. Reduce overall labor costs!

<table>

• Exclusive spring-loaded guides ensure square cuts.
**UNIVERSAL DIES & R811 DIE HEAD**

- Reed uses its 120+ years of die-making experience to select the best materials, methods, and CNC production for its Universal Dies.
- Choose from Reed’s full line of dies made from Alloy and High Speed Steels in geometries for NPT and BSPT.
- R811 die head uses Reed and other popular universal dies.

**700PD POWER DRIVE**

- Portable, electric, heavy-duty power drive that threads pipe and conduit up to 2” (50 mm) in diameter.
- 1/2 horsepower, double insulated, turns at 28 RPM (no load) and uses a forward/reverse switch.
- Includes free safety vise.

**5301PD POWER DRIVE**

- 5301PD Power Drive rotates the pipe for cutting, threading, or reaming.
- Reed offers both a basic 5301PD machine with foot pedal and the 5301PDCOMP complete kit.
- Models available in 38 RPM or 57 RPM.
