Portable and Powerful Test Pumps

Drill Powered Hydrostatic Test Pump

- Designed for testing residential and commercial water systems
- Separate drill keeps weight off the pump, making it lightweight and portable
  - Almost 30 pounds lighter than the EHPT500
- Requires 18V cordless drill or 1/2” corded drill
  - 1500 RPM drill recommended; pump range is 300 - 2000 RPM
- No drop cord needed when used with a cordless drill
- 15-foot High Pressure Output Hose (included) has quick disconnect feature
- Output pressure adjusts easily from 0-500 psi simply by turning the large red knob
- Seal replacement kits available

Electric Hydrostatic Test Pumps

- Pressure test water systems such as water meters, plumbing lines, pressure vessels, solar systems and sprinkler systems, in both residential and commercial buildings
- Hose features a quick disconnect with built-in check valve, which allows for convenient setup and portability
- Smooth running, quiet motor
- Each test pump includes a 15-foot (4.6m) high pressure hose (EHTPOUTHOSE) for filling the system

Manual Hydrostatic Test Pumps

HTP300 (300 psi) and HTP1000 (1000 psi)

- Economical
- Consider manual pumps for infrequent use

Combo Roll Groovers perform both power and manual grooves with ease. They are built to last — delivering reliable, consistent tracking over the long haul.

- 1-1/4”-6” capacity (32-152 mm)
- Grooves Schedule 10 and 40 steel, stainless steel & aluminum pipe

Related Product - RG6S Roll Groover

- Compact design for 1-1/4” - 6” Schedule 5S - 40 steel pipe or 4” - 6” PVC
- Powered by REED 5301PD Power Drive (sold separately)
