**CASE CLOSED**

- All the tools needed for a perfect joint, every time.
- Cutter, deburring tool and internal cutter together in a carrying case.
- Works for plastic pipe such as PVC, CPVC, PP, ABS and PE.

---

**Quick Release™ Tubing Cutter**

Cutter produces a square cut so the pipe bottoms out in the fitting for best fit.

- TC2QPVC for 1/4” – 2 5/8” PVC & CPVC
- TC3QPVC for 3/8” – 3 1/2” PVC & CPVC
- TC4QPVC for 1 7/8” – 4 1/2” PVC & CPVC

**Deburring Tools**

These tools not only deburr, but also produce a chamfer to manufacturers’ standards in seconds. Blades are sharpenable and replaceable.

DEB4 creates a smooth pipe end so solvent spreads evenly as pipe is joined. Fits six sizes of 1 1/4” – 4” PVC, CPVC and ABS pipe.

For deburring 1/2”, 3/4” and 1” PVC, CPVC, PE, ABS and PP pipe calibrated in iron pipe size or copper tube size, chose DEB1IPS or DEB1CTS, which both have knurled grips for slip-resistance.

**Internal Pipe Cutter**

Reed “SL” Internal Pipe Cutters conveniently cut from the inside using a heat-treated, steel, saw-toothed blade. Exclusive, adjustable guide doubles as a depth gauge.
