L4N1XP Dual Socket Ratchet Wrench

NEW

WATCH VIDEO

L4N1XP #02692 15/16", 1-1/16", 1-1/8" & 1-1/4" Sockets

- ⇒ Mechanical joints and restraints, repair clamps, service saddles
- ⇒ Gas and water industry couplings, repair clamps, service saddles, flange bolts
- ⇒ Flange bolts, friction clamps, hydrant break flange and some bonnet bolts

- Sealed ratchets provide **best performance** and **extra protection** for jobsite conditions.
- Length and shape of handle yield maximum leverage.
- Rugged grip handle provides a secure hold.
- Convenient directional switch located below socket.
- Sockets stay on handle – no loose sockets.
